

Please leave the Indiana "Do Not Call Registry" the way it is. It works. We receive virtually no unwanted calls since its inception. Any weakening of Indiana's list is not in the interest of the people of this country or state. It is the single greatest governmental action in the past decade for Indiana. Please, do not put the interests of a few large corporations ahead of what is best for this country. We have an 88 year old living here that can barely hear. When he receives unwanted telemarketing calls it really gets him upset. He has to get up and try to get to the phone, only to discover his effort was pointless. We will never ever do business with anyone calling us unsolicited, so why allow them to waste our time and create this havoc for our family. Do not let this happen.

Sincerely,

Mr. William Lee
